TOWN OFFICIAL PAPER.

VOLUME III. BERKELEY, CAL., THURSDAY, FEBRUARY 13, 1896. NUMBER 79.

VALENTINE SOCIAL.

STRONG LANGUAGE FOR A BERKELEY PREVARICATOR.

The Young Boy Arrested at West Berkeley for Vagrancy Allowed to Go on His Way.

Valentine Social.

Next Friday evening, the Christian Endeavor Society of the First Presbyterian church will give a valentine festival and entertainment, with a supper, in Shattuck hall. The hall will be elaborately decorated for the occasion and there will be booths in which candy, ice cream, flowers, fancy work, valentines etc., will be be furnished. Selection, Omega Alpha Quartette; selection, "Brownie Chorus," by seven Brownies; chorus, "Whistling Farmer Boy;" recitation, Miss Ida Remington; selection, Omega Alpha Quartette; character song, "Comin' Thro' the Rye;" solo, "Ben Bolt," Miss Ida Remington in Trilby costume. The entertainment will be for the benefit of the church building fund.

A Contemptible Liar.

An anonymous circular has been issued in relation to the bond question through the San Francisco Chronicle which for unprincipled lying has had no equal since Ananias was killed. The old adage that an anonymous writer is a liar anyhow need go no further for an example.

Berkeley unfortunately has a few of this class of men who always try to evade taxation and are always opposed to any public improvement whatsoever. They are sweet as honey to your face and bitter as gall behind your back. Constantly in trouble with their neighbors they do not live in peace with themselves nor let others have any quietness. They are always looking for the almighty dollar and have no hesitancy in robbing the dead to get it.

Berkeley has no use for such cattle. The town has been kept back too many years already by allowing men of this class to have any footing in it whatever.

In the circular mentioned it commences with a lie and the lies which continue all the way through increase in strength as they go along down the page.

Philosophical Union.

The Philosophical Union meets on Friday night in Stiles' Hall parlors, to listen to an address by Professor Joseph Le Conte on "The Relations of Biology and Philosophy, with Especial Reference to Watson's Criticism of Darwinism." Professor T. A. Bailey and Charles A. Keeler will open the discussion. The usual place of meeting is in Professor Howison's lecture rooms in North Hall, but owing to the large number who want to hear Professor Le Conte, Stiles' Hall has been selected.

Cold Charity.

Fred Wilson, who has been held in custody for several days was allowed to go out of town yesterday. The boy says that his parents reside in Los Angeles. They got divorced some time ago and the mother got married again. The stepfather does not wish to do anything for fear of having trouble with the boy's own father, who, according to the son's story is a drinking man. Father Phillips offered to have the boy taken care of, but as he is not a Catholic he did not want to accept the offer. As officer Rawson states there is no society here to take charge of such cases, he has to let the boy go, giving him as good a send-off as he could afford to out of his own pocket.

The boating season has begun. The management of the association announced today that men wishing to train for class crews would report at once to the captains of their respective classes. These are Peck, '96; English, '97; D. Hutchinson, '98 and Cole '99. Class races will soon be announced.

Thos. R. Latemer has been arrested for disturbing the peace of James Stutt. His trial will take place in Justice James Court in a day to be set later on.

"What do they mean papa about the bonds and new school houses and wharf that the boys are talking about in school?" "They mean, my son, that the town of Berkeley is going to build nice large school houses so that there will be plenty of room for all the boys and girls, and a brand new wharf so that vessels coming from China, Japan, Australia and the islands in the Pacific Ocean can land their goods right here in Berkeley, and nobody will have to go to San Francisco for them. Then people will come here to live and build fine houses to live in. There will be a lot of new factories, new stores, and Berkeley will grow to be a very large city."

The Women's Auxiliary of the Unitarian Church has selected new officers as follows: President, Mrs. William S. Wattles; vice-president, Miss Caroline Bates; treasurer, Mrs. M. D. Marsh; secretary Mrs. W. A. Grover; members of the board other than the officers, Mrs. H. A. Chase and Mrs. William Hume. At the annual meeting of the society a report of the retiring treasurer, Mrs. Walter Gate was read, showing receipts during the past year to have been $835.48.

Among the applicants for the position of Commander of the Veterans Home at Yountville is Captain J. T. Morrison of North Berkeley. No better man could be selected for the position in our judgment. He has all the necessary qualifications for the position, and if he receives it the frequent scandals that are connected with the home would never occur again. Captain Morrison is a good citizen and many of his friends would regret to know that he was to leave Berkeley, but of course they would be pleased to have him receive the appointment which he seeks.

Edwin Meredith Esq. of Batavia, Illinois a brother-in-law of Deputy Marshall C. T. Kerns, arrived in Berkeley last Monday on a visit to California, for his health. He has just returned to America from a long trip through Europe where he visited all places of note. In reply to an enquiry as to his opinion of our State he said that California beats the world. It goes without saying that Berkeley is the prettiest town in the State.

The GAZETTE was distributed to every home in Berkeley today by members of the West Berkeley progressive Club, and the work of distribution was thorough. In many of the homes where the papers were left the paper is a regular visitor. In others it got there for the first time, and it is a sure thing that in the future the GAZETTE will be a visitor to these new homes. At least we hope so.

Tomorrow will be Valentine's day and in the evening there will be a Valentine Social at the West Berkeley Presbyterian Church. A good entertainment will be given. The admission is free, and refreshments will cost but 10 cents. There will be valentines on hand for sale and there will be a free delivery. Everybody who wants to have an enjoyable time should attend this social.

Tomorrow will be Chinese New Year and any person living in the neighborhood of a Chinese laundry is liable to have but very little sleep this evening, as fire crackers and bombs will be fired off in quantities, notwithstanding this is an ordinance to the effect that they can only be fired off within the city limits on the Fourth of July.

Those of our citizens who will furnish a conveyance to bring electors to the polls on Saturday will please leave word at the office of Paine & Dickieson on University avenue near Fifth by tomorrow evening.

A. K. P. Harmon, the well known Oakland capitalist is seriously ill at his home on Webster street. Several physicians are in attendance, but they fear that he cannot recover.

The University Circle, Companions of the Forest will mett this evening in regular session at Pythian Hall.

COUNTY BOOMERS

A SCHEME TO ADVERTISE ALAMEDA COUNTY.

A Minstrel Troupe Organized at South Berkeley—Selecting a Question.

To Boom the County.

The Development Committee of Alameda county is now ready for business. An organization has been effected by the election of W. H. Weilbye as president; W. V. Witcher, vice-president; and Webb N. Pierce, secretary. It was decided to make an appeal to the Supervisors, City Council and the towns of Berkeley, Alameda, San Leandro, Haywards, Pleasanton and Livermore for funds to be expended in advertising the county abroad. The committee proposes to make every effort to induce immigration to Alameda county. W. V. Witcher, W. R. Davis, W. H. Weilbye, C. R. Yates and George L. Fish are among those who are taking an active interest in the matter.

Selecting a Question For Debate.

The forensic class of the University students, which is in charge of Professor C. M. Gayley, met yesterday morning to consider the choosing of a question for the intercollegiate debate, to be held in April. After discussing all sorts of subjects it was finally decided to leave the selection to a committee composed of Professors Gayley, Moses Jones, Bacon and three students whom Professor Gayley will appoint. They will probably be Flaherty, who won the medel last Friday night; Dam, the present of the Students' Congress and Theodore De Laguna.

South Berkeley Minstrels.

An organization to be known as the South Berkeley Minstrels has been formed in South Berkeley and Lorin and will on the evening of May 1st give one of the greatest shows ever given in Berkeley or any other city, at the South Berkeley Hall on Ashby avenue. The following well known talent has been selected for the coming show: S. T. Blake, H. L. Tisdale, W. S. Coleman, W. T. Barnett, Frank E. Show, Cliff McClelland, Jas. H. T. Mason, C. J. Lutgen, B. A. Harnett, Wellington Gregg, Thos. J. Allen, John Noble, Ernest Snow, A. F. Schad, Matthew Lee. Prof. J. C. Lutgen.

S. T. Blake is the manager and B. A. Harnett is the Secretary and treasurer of the organization.

Real Estate Transfers.

D. J. Landregan to Tillie R. Spear lot 4, block 12, Landregan tract.

Martha G. Bailey to Frank G. Bambridge lot on Handy street, block 1, Central Park at Alcatraz station.

Ann A. Shepard to Carrie F. Kirk lot on south line of Haste street west of Audubon, being a portion of the Bell property.

Charles A. and Alice C. Bailey to Herman E. Soudeck lot on east line of Ninth street, 100ft north of Channing way, block 122; corrected map of Raymond tract.

William J. Landregan to Elizabeth H. Spear lots 1 and 2, block 7, Landregan tract.

Mr. J. Schreiber has just returned from Merced County, where he has been on business connected with the Imperial Gas Machines, which he manufactures here. He was successful in obtaining orders for several machines which he will immediately forward. This comes from the success of the machine which he lighted up the Court House of Merced with last fall.

Mr. George C. Pape has recently erected a green-house for Mr. L. E. White of Berkeley, where the latter gentleman will use heat for raising early grapes. It is the first attempt of this kind in Alameda County. Mr. Pape deserves credit for the manner in which the building is constructed.

A rumor is about that a couple more telephone girls will have to get situations somewhere outside of Berkeley if they intend to follow that line of business.

Students will Work.

The days when the students will work on the new road have been officially announced. This afternoon Recorder Sutton posted a notice on the North Hall bulletin-board from President Kellogg which stated that all college work would be suspended on Thursday, February 27th, beginning at noon, and including the two following days, so that the students might work on the road if they wished.

He said when asked what the next move would be that the Regents' Committee on Grounds would have to attend to the rest. He did not believe the students liked to be ruled by the faculty any more than was necessary.

Regent Reinstein said that the work was to be entirely voluntary. It was farthest from his idea of university spirit to suggest any sort of compulsion, "Let college spirit attend to that."

As the work of organizing the men into squads, easily handled by the Superintendent of Construction, will now become necessary, the associated students will probably be called together to arrange the matter. President Friend said today that the students would hold a meeting early next week to make final arrangements. There seems to be a unity of opinion as to the success of the undertaking, and especially the idea suggested by Regent Reinstein yesterday that a grand celebration be held on the night of the 29th, when the electric lighting will be completed and ready to be turned on in the library building and across the campus.

A young man was walking along the railroad tract a few miles above Berkeley yesterday, when he slipped and fell through a cattle trestle, and hurt himself quite badly. His mother who resides in San Francisco was sent for, and she took him home to San Francisco at a late hour last evening.

There are but a few more tickets left for the raffle for the gold watch belonging to Mrs Dutra, which is to be raffled off at Sam Fisher's on Saturday evening next. The money is badly needed and it is hoped that there will not be a single ticket on hand unsold, when the raffle takes place.

Nick Riner, the contractor of Golden Gate, who was sent to the County Jail for assaulting a crippled carpenter, is working through his friends for a pardon, on the grounds that the evidence did not warrant a conviction.

The number of people pledged to vote for the $200,000 bonds in West Berkeley, now amount to 225. This number will be doubled by tomorrow evening.

Have you read the bargains in clothing that are offered you by Jonas Bros. If not read their advertisement in another column.

THREATENS LIBEL

AN ALAMEDA MAN AFTER THE HUMANE SOCIETY.

Professor LeConte to Lecture at Stiles Hall Tomorrow Evening on Philosophy.

A Libel Suit Threatened.

Clara Fallmer, who was arrested for vagraney in Alameda, is still under the protection of the Humane Society.

She was arrested in company with two other girls by the Constable, on Tuesday. Clara's father is a newspaper agent on the broad gauge local train, residing at 1920 Union street, and he is very indignant over the matter and threatens to bring a libel suit for defamation of character. He claims that Clara is a good girl and that everything that has been said against her is a lie. He blames Mrs. Prescott and says she caused the arrest.

Form good sources the Times reporter learns that Mrs. Prescott as Secretary of the Humane Society, had to beg Judge Morris for the girl. The Judge thought the girl had better be committed to the county jail. Mrs. Prescott finally gained her way and will now try to save the girl. It is said that she admits the facts of her misdemeanors and seems to feel no particular shame in the admission. The Humane Society will endeavor to place her in some institution, the Beulah Home at Fruitvale will be the one in all probability.—Oakland Times.

Wants His Money.

Mrs. Katherin V. Klinkner, who is executrix of the will of her husband, the late C. A. Klinkner was directed by an order of court August 19, 1895, to pay H. B. M. Miller, who was formerly her attorney, $2000 as compensation for legal services. H. B. M. Miller assigned his claim to Don F. Miller. The latter has now petitioned for a citation to have Mrs. Klinkner show cause why the money has not been paid He claims that since the order was made she has received $4000 from sale of property belonging to the estate. Mrs. Klinkner has been ordered to appear on Tuesday the 18 inst. show cause why her letters should not be revoked and she be punished for contempt.

South Berkeley in Line.

EDITOR GAZETTE.—At a regular meeting held Tuesday evening, February 11th, the South Berkeley Improvement Club unanimously endorsed as a whole the Bond Proposition.

Believing that a successful result will add greatly to the commercial and educational advancement of Berkeley.

Yours respectfully,
E. V. GORE, Secretary.
W. Gregg, President.

Edison's Great Discovery.

New York, Feb 13.—Edison in his experiments with the Roentgen rays in photography believes that he has accidentally hit upon a process of hardening aluminum that will make it a substitute for steel in all the uses of [illegible] from stiff to brittle.

This means a revolution in the iron work. This discovery was made by the wizard last night.

In happening to pick up one of the aluminum disks used for the cathode electrode in the course of his experiment, he tried to bend it, but found that its nature had changed and that it was stiff as steel.

For Family Trade.

The I. O. O. F. will meet this evening at Odd Fellows Hall.

Court Ocean View Order of Foresters are making great preparations for their grand entertainment which takes place on the evening of February 22nd.

Apparently those who oppose issuing of the bonds are composed of people who neither have children or pay any taxes whatever. Not even a poll tax.

People have awakened to the idea that Berkeley has got a move on. One that nothing will stop this side of eternity.

More private letters were received today making particular enquiries about the bond issue. Capitalist know where to make good investments.

When Berkeleyans once get around they work with all their might and main, never failing to accomplish what they go after.

There will be special religious services Friday the 14th inst. at 3:15 p. m. at the Trinity Methodist Church. Children of school age are particularly invited.

Out come the right hand of South Berkeley and it shakes in a way that means business and its heart is in it. A large majority for the bonds on the Southern border.

Ann J. Stiles and J. T. Boyd, trustees under the will of A. G. Stiles, have sued James A. Easton to foreclose a mortgage for $1250 on property on Summer street, Berkeley.

The very fact that Berkeley is going to have a wharf on her water front capable of taking cargoes from seagoing vessels is sufficient to give the town a standing with the commercial world she never had before.

Remember that the amount of money raised by the bonding system is not going away from the town. Every dollar will be spent among our fellow citizens. Just think how much good $200,000 will do us all.

It will be a day in the annals of Berkeley never to be forgotten if the bond ordinance is carried. Think of the future prosperity when you make the cross on your ballot and put it on the place where it will do the most good, that is a vote for the ordinance.

It is with unconcealed pleasure that we note the great change in public opinion during the past three weeks on the bond question. Our citizens have been misled concerning them, and are just finding it out, hence the change in views.

A gentleman who does not reside in Berkeley but has considerable landed interest here remarked today in the course of conversation that if the bond ordinance was carried it would add fifty per cent to the value of his property immediately. He is a thorough business man to.

When you think at all about voting upon the bond question, remember [illegible] good for those who come hereafter, but you are assisting your daily neighbor. Furthermore you are doing it in a way that will not cost you a cent.

The Executive Committee of the Athletic Association met yesterday afternoon and granted the request of Manager Reinhardt of the football team for an Advisory Committee. Regent Reinstein, W. E. Magee, the director of physical culture, Walter Henry, '93, and Oscar Taylor, '94, were the men named by the manager for this honor.

To the calculator the extra amount of taxes caused by the issuance of the bonds asked for fades away similar to the dew before the sun. For instance in two years the increase in valuation of property for taxation will double, this will reduce the rate one-half. Any one can see how at this rate the number of years it will take to make the taxes even at a much less rate than at the present time and still have more money for permanent improvements.

THE NORTH POLE

SAID TO HAVE BEEN DISCOVERED FOR SURE.

Stuart Says that the Great Fight Will Take Place in Mexico Tomorrow.

Special dispatches to the GAZETTE.

The North Pole.

St. Petersburg, February 13.—A dispatch from Irkutsk, Siberia, says that a Siberian trader named Koachlaeroff, who is acting in the capacity of agent for Dr. Nansen, the Arctic explorer, has stated that off Kolymsky he received information that Nansen had reached the North Pole, where he found land, and is now on his way back.

When Nansen sailed on his voyage it was with the intention of devoting five years to it if necessary. His vessel was peculiarly constructed so as to resist the pressure of the ice, and fully provisioned for five years His intention was to penetrate the ice as far as possible and then let it carry him north.

Dr. Fridtjof Nansen, who has gained fame as an Arctic explorer, is about 35 years of age. He was formerly keeper of the Natural History Museum of Bergen, Norway. He acquired his Arctic experience in Greenland. Nordenskjold had started a theory that the interior of Greenland had a mild climate, and that probably the survivors of the settlers from Iceland would be found living there. To determine this question Dr. Nansen, accompanied by three Norwegians and two Laplanpers started from Iceland in June, 1888. After terrible hardships, in some places finding a temperature 80 or 90 degrees below zero, they succeeded in crossing Greenland, and reach the western coast in September. They were obliged to remain in Greenland all winter.

To Fight on Mexican Soil.

El Paso, Tex., Feb. 13.—Many sports here are becoming so anxious about seeing the big fight that they have declared their intention of watching the depots all tonight to avoid being left.

General Mabry's rangers are watching every train with the purpose of boarding it if they discover any intention of pulling off the fight in Texas.

Stuart has repeatedly assured the adjutant general that he has no intention of, having the fight in Texas.

It is practically certain now that the fight will be on Mexican soil somewhere.

It will be a dash across the border and a run for home after the fight is over.

Sunk by the Paris.

Southampton, Feb. 13.—While the American line steamer Paris, from New York, was docking this morning she came into collision with the steamer Majesty, belonging to the Isle of Wight. The Majesty was sunk, but all of her crew were saved.

Berlin, Feb. 13.—In the Reichstag today Baron von Bieberstein, Minister for Foreign Affairs, repudiated the insinuation that Germany had designs against the independence of the Transvaal, adding: "Such a policy would be swept away before the indignation of the people."

Indicted For Murder.

Cincinnati, Feb. 13.—The Grand Jury of Campbell county, Kentucky, sitting at Newport, this morning reported to Judge Perkins indictments against Scot Jackson and Alonzo M. Walling for the willful murder of Pearl Byran.

Forty Were Drowned.

Brisbane, Queensland, Feb. 13—The Brisbane river has been greatly swollen by floods. A small steamer crossing the river today with about eighty passengers capsized and only forty were saved.

The capsized steamer was the ferry boat Poral.

The currant was very swift and the river bank and Victoria bridge were endangered.

MUST BE ASHAMED.

This morning people of Berkeley who are subscribers to the San Francisco Chronicle, found folded in their papers a circular headed "Forty years of Bondage" and signed "The Civic Federation." This is an association that even the oldest inhabitant of Berkeley never before heard of and if there is such an association it must have sprung up like a mushroom in one night, as it seems that the members are ashamed to publish their names to the circular which they have issued against bonds.

It is now our intention to have something to say in reference to the statements published in this circular. It started in by saying that the interest and principle for the first four years would build four school buildings, and that the total cost would be $58,000. As these buildings would have to be built by direct taxation which would mean at 75 cents on each $100, a tax of $4.35 on each $100 to the taxpayers for four years, which will far exceed the amount that the taxpayers would have to pay if they voted for bonds as is at present suggested.

The circular next proceeds to lampoon the members of the Board of Trustees saying, "that when the new charter was adopted it was promised that the extra 25 cents taxation would pay for extra lights, street repairs and other municipal necessities, but that the Reform Board has practically used up the extra sum raised in paying higher salaries and extra deputies, and that even the President of the Board occupying an honorary position is in it too, to the extent of $600 per annum. All their business is done in secret and cut and dried before coming before the people, in true ring style. This is their record, and the Assessor is even now being urged to raise his valuation so that more taxes can be raised."

In reference to the above it is a shame that we have in our midst men who would try, behind a nom de plume, to asperse the characters of honorable citizens such as our Board of Trustees, is composed, and publish to the world that they are a set of ringsters and boodlers.

Let us see how much truth there is contained in the statement as published. The present Board of Trustees have followed the provisions of this new charter to such an extent that some forty-two extra lights are now being put up by the Electric Light Company in different parts of the town. The City Hall, which before was a disgrace to the town, has been painted outside and in, and the upper story which had hitherto been given up to the exclusive use of rats and mice has been finished up so that the officers of the town could attend to their business in a proper manner. A large shed has been erected where the town property such as sprinklers, shovels, picks, lumber, etc., can be safely kept. There has been more repairs on the streets than ever before, and this necessitated the employment of an assistant to the Street Superintendent to do the very work that the charter provided for and [illegible] called, are now saying has not been done.

Another false statement in the circular is that [illegible] of bonds. The petition was handed to the editor of the GAZETTE, and by him given to W. R. Dickieson of West Berkeley, who circulated it in that section of town, obtaining over one hundred names, and he was not paid one cent for it, nor were the gentlemen who circulated it in other portions of town. In fact at the time the petition was circulated it was thought that the majority of the Board was against bonds.

The President of Board of Trustees does receive $600 per year, but not as his services as President or as Trustee, but for his services as auditor, and the money is well expended, and many dollars are thereby saved to the town.

In reference to the wharf bonds the circular says: "A gentleman in Berkeley says: guarantee me interest only on my investment and I will build and conduct a wharf, but he cannot see with the most careful examination a computation where it will pay in any sense of the word for ten years, at least." We ask who is this gentleman and to whom has he made this proposition? We think that he is a myth like the Civic Federation. Any man who wanted to make a proposition of that kind would not be ashamed to make himself known even in an anonymous circular like the one issued this morning, and whose author or authors were ashamed to father it.

We are glad the circular has been published for it gives us a chance to refute it, and it will act like a boomerang upon those who got it up and will be the means of changing many votes in favor of the bonds.

THEY CALLED.

The GAZETTE builded better than it knew when it announced that last evening it would receive its friends to witness the printing of extra copies of the paper, and at the same time see a printing office in full blast.

The building was lighted with electric lights run by the GAZETTE'S own plant. It has its own engines and dynamo for the purpose and makes every part of the composing and printing rooms light as day. One could see all the machinery of the different newspaper and job presses in full motion more distinctly than by daylight. Great interest was taken in the new newspaper folding machine just erected, which worked like a thing of life. Interest was also taken in the stereotyping rooms which are about ready for working operation.

With members of the different progressive clubs in town placing the GAZETTE and circulars to go with it in shape for distribution to every voter in town, and the many visitors looking on, the building was filled to its utmost capacity. The many lady visitors were even more interested and curious to see all that was going on than the gentlemen. As they may take a more prominent part in business affairs one of these days than at present, their desire for information was greater.

It was an evening to be remembered by all, and nobody appreciated it more than the proprietors of the GAZETTE, who have worked so hard to bring about such a feeling in the community.

Today will be a working one and so will tomorrow and the following day be the hardest of all and yet the work done on the last day will be the most pleasant of all because the hearts of [illegible]

It was quite late in the evening ere the presses ceased in their motions and still later when the volunteers stopped their work for the night. All went away feeling that much good had been done for a good cause.

Fuel Oil.

The owners of oil well stock residing in Berkeley are feeling pretty good over the outlook of their wells in Summerland. As stated in a recent article the company has four wells dug, from which there flows at present about fifty barrels per day. It desires to put in new machinery for pumping purposes, also to go deeper with the wells, to get a larger supply. In order to make these improvements the Company will sell some stock, the par value of which is three dollars. They have put it on the market for fifty per cent of the par value; that is, one dollar and fifty cents per share. By an increase of production it is thought that it will soon be a dividend paying institution 75 w1

LOSS OF THE LUTINE.

MORE THAN $1,000,000 WENT TO THE BOTTOM OF THE SEA.

Only Two Survivors Picked Up, and They Soon Died—Of the Vast Treasure $500,000 Has Been Recovered—Extensive Operations Under Way to Secure the Rest.

There is an oaken chair in the office of Lloyds', in London, the great maritime firm, which is a [illegible] at the [illegible] Lutine, which sank in 1799, was wrecked in the North sea, with the largest amount of gold on board that ever went to the bottom. The secretary of Lloyds' recently gave to the public an interesting account of this wreck and of the numerous attempts to find her lost treasure. The Lutine was a 36 gun frigate, captured from the French in 1793.

"In the autumn of 1799 it was necessary to send a large amount of specie across the North sea, and, as usual, application was made to the admiralty for a king's ship. This method of conveyance was thought the best guarantee for honesty, the best assurance against capture by foreign foes. Although some money is supposed to have been transmitted by the Lutine to pay British troops then serving in Holland, the bulk of the treasure was forwarded for purely commercial reasons.

"London merchants trading with north Germany in those days were in the habit of sending their goods and then drawing bills for their value upon Hamburg and other houses at so many months ahead. By the time the bills fell due the goods had been sold for cash, which was paid into the banks to meet engagements. But a protracted frost in the early part of 1799 had so long sealed the Elbe that the merchandise had been detained ice bound and could not be landed or disposed of in time.

"The London traders, to save their credit and escape the expense of protest, providing new bills and other probable commercial disasters, resolved to send cash across to cover their drafts as they came to maturity. So grave was the crisis, so great the sum to be embarked, that a king's ship was asked, and nearly every banking firm in Lombard street dispatched a member in charge of its own cash contribution.

"Moreover, as many legal questions might arise, an experienced notary—his name is preserved, Mr. Schabrach—was secured to accompany the party and advise in any difficulty. The precious cargo was insured principally at Lloyds'.

"Various ideas, and nothing quite authoritative, prevail as to the exact amount on board the Lutine. Some say the specie, which was in coins of all sorts, gold and silver, guineas, golden piasters, double louis d'or, Sicilian goldpieces, silver piasters and dollars, also in gold and silver bars, reached a total value of upward of a million.

"In October of that year the Lutine was ordered round to Yarmouth to take treasure on board and proceed to the Elbe. Her captain was one Lancelot Skynner, R. N., an officer of distinction, and no doubt his mission was much to his taste. The short voyage was likely to bring him considerable profit, for it was the rule to pay naval captains a commission of 1 per cent on the total value embarked.

"On the evening of the 5th of October the Lutine lay in Yarmouth roads with a merry party on board. The captain, no doubt in excellent spirits, had given a grand ball to the leading people in and about Yarmouth. The last of the guests had hardly gone ashore when peremptory orders came from the admiralty that the Lutine should forthwith go to sea. She sailed in the early morning of the 6th; and from that time very little was heard of her.

"It is, however, known that she steered a straight course for Cuxhaven, at the month of the Elbe, wind strong from north northwest, and greatly in favor. After landing passengers and treasure the Lutine was to convoy a fleet of merchantmen to the Baltic.

"Soon after midnight, going free and under full press of sail, she struck on the outer bank of the island of Vlieland (Flyland), the next to the Texel and one of the ring of islands that hem the mouth of the Zuyder Zee. She must have been slightly out of the course, and it is said that there was a strong lee tide running. During the night she went down with all on board. Another king's ship, the Arrow, Captain Portlock, was in company, but she could give no help, nor the 'scoots' or fishing boats of the coast, and when day broke there was no Lutine. Only two survivors were picked up by a Dutch lugger at daylight clinging to the wreckage, one of whom died almost immediately, and the other, Mr. Schabruch, the notary, very soon afterward died, but not until he had told the little he knew.

"Repeated efforts have been made to recover the money. In the year immediately following, when the whole thing was fresh and before the sand had silted or drifted over the wreck, the Dutch managed to [illegible] £5,000. Then more systematic and some really costly efforts were made, and by 1857-9 another £50,000 was recovered.

"The present operations were begun in 1892 by an English engineer, Mr. Fletcher, who had been engaged on the Dutch coast in raising a sunken dredger. He became interested in the Lutine, and associating himself with another eminent engineer, Mr. Rinnple, they have approached the business in a novel way. Their idea is to clear the ship of sand, but to inclose her in a central area or dock faced by sandbags, which will prevent further silting, while they ransack the interior of the wreck by divers. This area is 200 feet in diameter, from which the sand will be removed by powerful suction dredgers." — New Orleans Times-Democrat.

The second Seminole Indian war began in 1856 and lasted until the close of 1858. The total number of men enlisted for this war was 8,687.

WANTED TOO MUCH.

The Latter Part of a Complex Scheme Fails to Work Successfully.

Said a wholesale whisky merchant: "We have the reputation of giving more for charity than any other class of men. While we get credit for some things we do, yet there are many calls made upon us that are never recorded. I remember a case not long ago. A former prosperous citizen came into our establishment. He took out his handkerchief and wiped the tears that came into his eyes. In a broken hearted manner he said that his wife was dying, and that the doctor had prescribed whisky, but that he did not have any money. When he told such a tale of woe, I said:

"'My friend, if your wife is really sick, I will give you the whisky.'

"He swore he was telling the truth, and I put the whisky in a bottle on which was our brand. He left, the happiest looking man in the world. I was feeling good also and was flattering myself into thinking I might be another good Samaritan, when presently my friend reappeared. This time his tears were rolling down and his frame was shaking with convulsive sobs. I went over to him and asked, 'Is your wife dead?'

"'Oh, no!' he replied, 'but I am afraid she will die, as just as I was at my front gate I slipped on the steps and dropped the bottle, which broke into a thousand pieces. I picked up the pieces and have brought them back for you to see, and to beg that you will give me another bottle.'

"I was touched and turned to get him another bottle, when to my surprise I got a glance at a piece of the glass. I said, 'Excuse me, my friend, but the bottle I gave you [illegible] and that one is green.' I then examined the pieces and found that it was not the bottle nor our brand. The liquid on the glass was water. As I looked at my friend he picked up the pieces, turned red, mumbled an excuse and sneaked off."—Louisville Courier-Journal.

The Swiss Pike.

The name of the Swiss is generally identified with the long pike of the 18 foot shaft, and most gallant attempts have been made by recent writers to prove that this celebrated weapon was a Swiss invention and employed by the confederates from the first. The point, however, is one that must remain uncertain, for the earliest mention of the long pike is found in an order addressed in 1327 by Count Philip of Savoy to the burghers of Turin, and no one can tell whether the Savoyards borrowed it from the Swiss or the Swiss from the Savoyards. The primitive weapons of all infantry seem to be the spear and shield. The Milanese fought with such spears and pikes eight or ten feet in length at Legnano, the Scotch at Falkirk and the Flemings at Courtrai, so that it is impossible really to predicate of any one nation that it added the requisite number of feet to make the weapon's shaft in order to make it a long pike. There is no mention of pikes in the battles of the Swiss until Sempach, and it is probable that in that action they were not above ten feet in length.—Macmillan's Magazine.
